## OPTIONAL FEATURES

☑ Green Certification ☑ Energy Star

With its stacked front porches and narrow footprint, the Acadia NCC-001 combines coastal styling with 2,716 square feet of two-story living. The main level includes connected living and dining spaces, a rear kitchen with a breakfast area, and a utility room near the stairs. A bedroom and full bath on this level offer an alternative to keeping every bedroom upstairs. The standard second floor adds two bedrooms, a game room and a separate home office, with access to the upper porch. Buyers can also review an alternate second-floor plan that replaces the game room and office with a fourth bedroom and a larger bath arrangement.
