OPTIONAL FEATURES

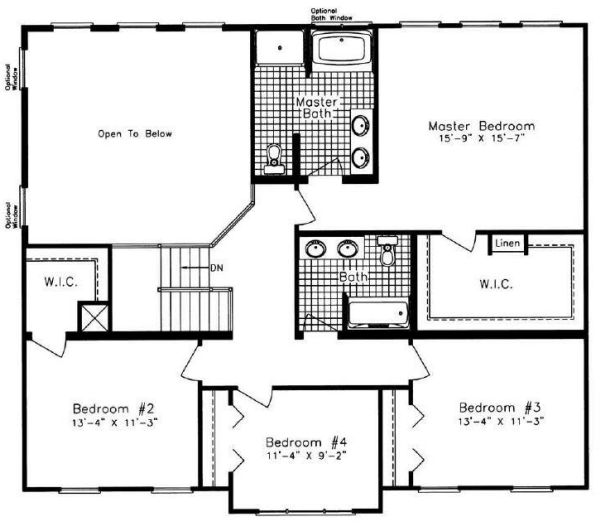

☑ Green Certification ☑ Energy Star

With 2,901 square feet, four bedrooms, and two and a half bathrooms, the Addison NNA-055 offers room to gather and places to retreat. Its two-story great room connects to the breakfast nook and kitchen, while a separate dining room and living room/study provide flexible settings for meals, work, or quiet conversation. A walk-in pantry and dedicated utility room support daily routines. Upstairs, the primary suite includes a generous walk-in closet, dual sinks, a tub, and a separate shower. Three additional bedrooms share a full bathroom. Optional drawings show a great-room niche and walk-out bays for the breakfast nook, living room, and dining room, allowing buyers to explore these alternatives with their consultant.
