NOTE: Cape Cod Homes presented on this website may describe proposed second floors that are not included in the estimated base price. This is due to the fact that they are to be completed onsite by others. You must contact your Modular Home Consultant to determine if the proposed second floor displayed is included in the estimated base price or may be available at an additional charge. You should assume that the second floor is unfinished and not included in the base price unless it is specifically stated, or your Modular Home Consultant confirms that it is included.
