OPTIONAL FEATURES

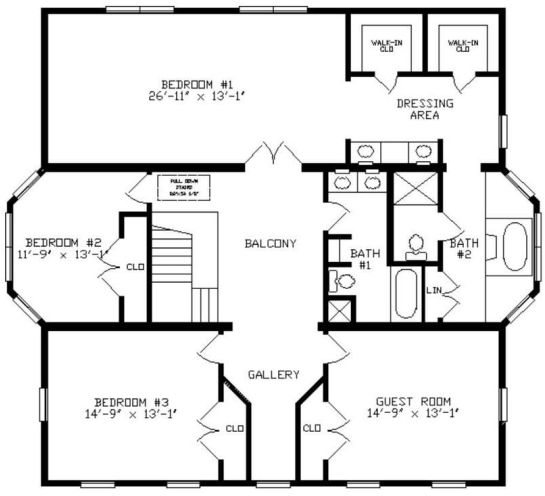

☑ Green Certification ☑ Energy Star

The Biltmore separates formal gathering rooms from a broad rear family room across its two-story, 3,772-square-foot layout. A central foyer opens toward the parlor and dining room, while a salon and tea room occupy projecting side bays. The kitchen includes an island and connects with the family room, supporting a different pace from the front entertaining spaces. Upstairs, four bedrooms include a primary suite with a dressing area and two walk-in closets. Its adjoining bathroom combines a tub with a separate shower. A second full bathroom serves the remaining bedrooms, with a half bathroom downstairs. The stone-front elevation, evenly arranged windows and arched entry surround reinforce the home's formal organization.
