AXIS . SBC-006

Traditional

SPECIFICATIONS

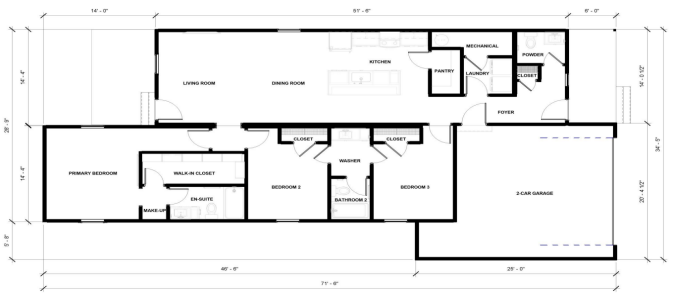

SQ. FT.	1479
BEDROOMS:	3
BATHROOMS:	2.5
LEVELS:	1

OPTIONAL FEATURES

☑ Green Certification ☑ Energy Star

Axis combines three bedrooms and two and a half bathrooms in a single-story plan with an attached two-car garage. The foyer connects the garage and covered entry to the main living spaces. A kitchen island and pantry serve the adjoining dining and living rooms, while laundry and mechanical spaces sit near the entrance. The primary bedroom includes a walk-in closet and private bathroom, and two additional bedrooms occupy the same side of the home. A separate powder room serves the entry area. The depicted exterior pairs contrasting vertical siding with warm-toned entry cladding, simple gabled rooflines, and a garage door with vertically arranged glazing.
