The Breezy Point plan is bright, open and airy. The open floor plan ensures visibility throughout the home, preserving the fantastic views from all angles. The first floor has 1 bedroom and 1 bath, however by finishing the proposed second floor (on site by others) this home could have 2 bedrooms and 2 baths. You could make the second floor the Master Suite complete with a sitting room as well and have the first floor bedroom as a guest room. There are so many possibilities with this home plan.
