OPTIONAL FEATURES

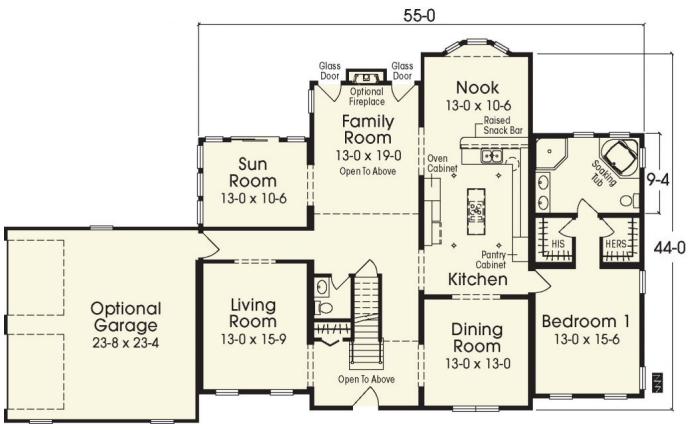

☑ Green Certification ☑ Energy Star

The Stockbridge is the home of all homes. It has 5 bedrooms and three of them have their own private baths. The two additional bedrooms share a bath. 4 out of the 5 bedrooms has a walk-in closet. There is a whirlpool tub in two of the 4 1/2 baths.

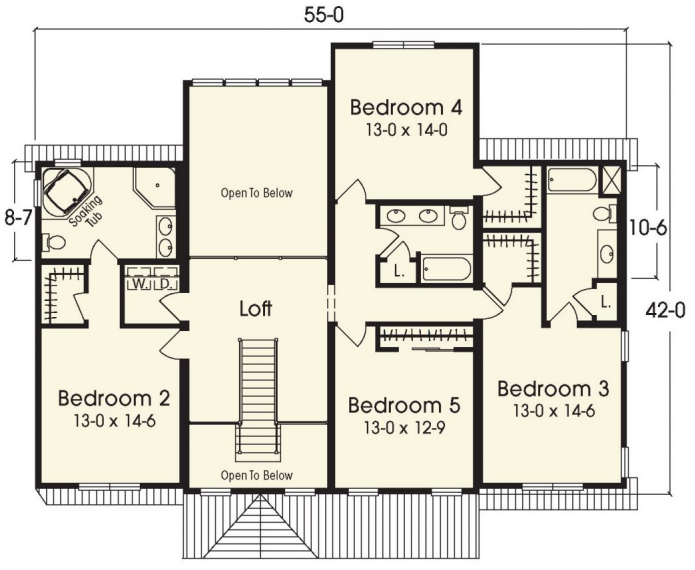

This plan has a first floor Master Suite that is so popular these days to have.

This elevation as pictured, features an optional high-pitched roof, stationary windows at the front door, window lineals, mantles, and grills. In addition, the decorative window in the high-pitched dormer, korbels, shake siding and two car garage are also optional. The high pitched dormer is a standard feature. The front porch roof is panelized and included standard with this home. Note: Masonry work and metal roof are done onsite by builder
